

I WANT TO BE A LEADER

I want to be a leader
I told the Lord one day

I heard Him whisper back to me
Listen as you pray

I choose MY leaders carefully

That seed it came from me
There's work to do
But I need you
To surrender first to me

I knew the hairs upon your head
When you were in the womb

I knew the plan for you to lead

If you would give Me room

To work in you
To build you up
So I would truly know
That you would lead
For Me, not you

To help My Kingdom grow

Through Mary Kay and her great dream

Yes, I was with her too

I also gave that seed to her

And **look at what she grew**

So I stepped off my bench that day

For who was I to judge?

And I have found it's much too heavy

To carry any grudge

So I began to love

And I began to lean,

Cause that's what Leaders do

And now with joy and peace of mind

I watch my dreams come true.

May God bless you in your quest to Directorship & BEYOND!
